# COMP 5801F, Fall 2024 Advanced Machine Learning

#### Meetings

Mondays 2:35 pm - 5:25 pm Start date: September 9

## Instructor

Majid Komeili majid.komeili AT carleton.ca

# **Course Website**

https://people.scs.carleton.ca/~majidkomeili/Teaching/COMP5801-F24/home.html

Note: The code for this course has changed from COMP 5900 to COMP 5801.

## **Course Description**

Machine learning (ML) is the scientific study of algorithms and statistical models that computers use in order to perform a specific task effectively without using explicit instructions, relying on patterns and inference instead. It is seen as a subset of artificial intelligence. This course will cover advanced topics in machine learning such as deep learning including CNNs, RNNs, Transformers, GANs, retrieval augmented generation, Deep clustering, transfer learning, domain adaptation, few-shot learning, zero-shot learning, self-supervised learning and Interpretability of ML methods. The format of the course will be a mix of lectures and paper presentations.

## Topics

This is an overview of the kinds of topics the course could cover.

- Convolutional Neural Networks,
- Recurrent Neural Networks, Transformers
- LLMs, RAG
- Generative Adversarial Networks,
- Transfer Learning,
- Few-shot Learning,
- Zero-shot Learning,
- Self-supervised Learning,
- Domain Adaptation,
- Deep Clustering,
- Interpretability of ML

## Prerequisite

You are expected to have a reasonable background in machine learning and be familiar with probability, statistics, linear algebra, calculus and Python.

#### **Evaluation**

- Assignments (25%)
- Paper presentations (20%)
- Class participation and discussion (5%)
- Final Project (5% proposal, 5% in class presentation, 40% Report)

## Information on Academic Accommodations

You may need special arrangements to meet your academic obligations during the term. For an accommodation request, see <u>here</u> for more information.

# **Student Academic Integrity Policy**

Every student should be familiar with the Carleton University student academic integrity policy described <u>here</u>.
